

12 November 1970

MEMORANDUM FOR:

SUBJECT : Commendation

1. The Deputy Director for Intelligence of the Central Intelligence Agency has commended the performance of the National Photographic Interpretation Center for the preparation of an exhibit and presentation of a briefing for Secretary of State Rogers on 14 September 1970. In the following weeks the briefing was repeated for a number of senior officials in the Department of Defense and State Department with great effectiveness. As a result the Center has earned high praise for its imaginative contribution to an issue of important national significance.

2. You were one of those who contributed to making that particular exhibit and briefing so meaningful and I take pleasure in commending your efforts. A copy of this commendation will be made part of your official personnel file.

ARTHUR C. LUNDAHL  
Director  
National Photographic Interpretation Center
